

6516206309.txt

I like my XM radio. It provides me with variety and quality that can't be found anywhere else. The traffic and weather channels are part of this great service and should continue to be available to me. I pay for the right to the XM radio. I should also be able to continue to get weather and traffic news.

I respectfully urge you to reject the NAB'S petition 04-160.
